

Private Swim Lessons

At Blueray, we believe that constant positive reinforcement is the best way to encourage kids to take chances and therefore improve throughout their swim lesson experience. Through our enthusiastic and fun approach to swimming, our instructors will ensure that each participant grows a long lasting passion for the sport. Through the Blueray Swim Lesson Program, parents can keep track of their child's progress by referring to the "Learn to Swim" report card at the end of each lesson. These personalized report cards will help parents keep track of the skills their child has been practicing and will help parents stay engaged in their swimmers progress.
